Fresh Graduate in Telecommunications Engineering from Telkom University with internship experience at PT Bank Rakyat Indonesia (Persero) Tbk and PT Metro Transmisi Indonesia. Experienced in data processing, operational reporting, business analysis, and project coordination through cross-functional projects. Proficient in Python, Microsoft Excel, and data visualization, with a strong foundation in data analysis, machine learning, and problem-solving. Eager to leverage data-driven insights and analytical skills to support business decision-making and continuous improvement in a dynamic, data-driven organization.

Work Experiences

PT. Bank Rakyat Indonesia (Persero) Tbk. – Head Offices, DKI Jakarta Nov 2025 – May 2026

Internship Assistant – Data Analyst

Distribution Strategy Group

- Developed and maintained a centralized job position database (60+ roles) covering branch offices down to the smallest operational units, ensuring data accuracy and consistency for workforce management.
- Managed regional-to-unit operational scopes, including workforce planning, formation requirement tracking, and preparing comprehensive executive reports using Microsoft Excel functions.
- Processed, validated, and analyzed 1000+ operational data records for the BRI Workload Clerks Analysis Project and Rebranding Signage UKO & E-Channel BRI Unit Project, supporting data-driven decision making, workforce planning, and operational efficiency initiatives.
- Developed business insights and conducted data-driven analysis to evaluate business growth trends and support strategic decision-making

PT. Metro Transmisi Indonesia - Surabaya, East Java Jun 2023 - Aug 2023

Internship Assistant

- Supported resource planning and operational execution to ensure timely completion of maintenance activities.
- Monitored and maintained 20+ network devices, including routers, switches, and multiplexers, to ensure stable transmission operations.
- Conducted routine inspections and preventive maintenance on 10+ transmission equipment units to support operational reliability.
- Prepared and analyzed operational reports to support performance evaluation and continuous improvement initiatives.
- Coordinated with a team of technicians to handle broadcast disruptions and maintain service quality for customers.

Telkom University - Surabaya, East Java Jan 2022 - Mar 2025

Laboratory Assistant

- Assisted more than 40 students per semester in conducting laboratory experiments and understanding course materials.
- Supervised and maintained 20+ laboratory equipment units to ensure operational readiness and safety standards.
- Guided practical sessions for 4+ classes and supported lecturers in preparing laboratory materials and assessments.
- Managed laboratory administration and experiment documentation for 50+ student reports each semester.
- Coordinated laboratory schedules and assisted in the implementation of 10+ practical sessions throughout the semester.
- Coordinated and supervised 10 laboratory assistants to ensure efficient laboratory operations and the successful implementation of practical sessions.

Education Level

Telkom University - Surabaya, East Java Oct 2021 - Apr 2025

Bachelor of Telecommunication Engineering | GPA 3.88/4.00

Organizational Experience

Telecommunications Engineering Student Association - Surabaya, East Java Nov 2023 - Dec 2024

Event Division

- Coordinated with a team of 20+ people to organize a department event attended by 100+ people.
- Managed and allocated event budgets for consumption, supplies, and operational needs for the event with the established plan.
- Organized 2+ internal training programs & workshops aimed at enhancing students' leadership, communication, and teamwork skills
- Managed and facilitated training programs attended by 50+ students focused on developing leadership, communication, and teamwork.

Human Resource Division

- Developed skill development programs aligned with the organization's vision and mission to support member competency growth.
- Conducted training program for 40+ members to improve entrepreneurship, communication, and teamwork skills.
- Collaborated with a team of 15+ members in organizing entrepreneurship events and internal development activities.
- Evaluated member performance and participation through regular assessments to support organizational development.

Projects

Designing OF AI-Based Voice Recognition System in Fast Food Restaurant Drive Thru Service | Telkom University (2025)

- Developed an AI-based voice recognition system using Python.
- Implemented machine learning algorithms for speech classification and performance optimization.
- Conducted model training, testing, and evaluation using multiple datasets.
- Analyzed accuracy, loss, and system performance to improve recognition reliability.

BRI Workload Clerks Analysis Project | PT. Bank Rakyat Indonesia (2025)

- Analyzed the existing span of control and workload distribution of clerks across operational units.
- Evaluated workload factors based on regional zones, working hours, and job responsibilities.
- Developed data-driven recommendations to improve workforce allocation, operational efficiency, and future workload management.
- Supported management decision-making through operational data analysis and reporting.

Area Head Implementation Evaluation Project | PT Bank Rakyat Indonesia (Persero) Tbk (2026)

- Coordinated survey implementation with 75 Area Heads across multiple regions to ensure timely completion of evaluation activities.
- Designed and implemented a performance evaluation and weighting framework for Area Heads to support objective and data-driven leadership assessments.
- Monitored survey progress and conducted follow-ups to improve response rates and meet project deadlines.
- Consolidated and analyzed survey results using Microsoft Excel to generate performance insights.
- Prepared summary reports and presentations to support management evaluation and decision-making.

Training of Trainer Rebranding Signage UKO & E-Channel BRI Unit | PT Bank Rakyat Indonesia (2026)

- Served as a committee member for the UKO Signage Rebranding and BRI E-Channel Training Program involving 120+ participants from 18 Regional Offices.
- Coordinated project implementation activities and stakeholder communication to ensure smooth execution.
- Contributed to operational monitoring and reporting throughout project implementation.

Certifications

- Data Analytics Internship Certificate – PT. Bank Rakyat Indonesia (Persero) Tbk (2026)
- EF SET English Certificate
- TOEFL Certificate
- English Language Proficiency Test (ELPT)
- Physics Laboratory Assistant Certification
- Telematic & Telecommunication Network Laboratory Assistant Certification
- Telematic & Telecommunication Network II Laboratory Assistant Certification
- Wireless Communication & Signal Processing Laboratory Assistant Certification

Skills

- **Hard Skills** : Microsoft Excel (XLOOKUP, VLOOKUP, Pivot Tables, INDEX-MATCH, Conditional Formatting), Workforce Planning Analysis, Operational Performance Analysis, Data Processing & Reporting, Microsoft Word, Python and Microsoft PowerPoint
- **Soft Skills** : Analytical thinking, problem solving, communication, teamwork, adaptability, and leadership
- **Language** : Bahasa Indonesia and English
